PROFILE STATEMENT

Data scientist with experience in predictive modeling, time-series forecasting, and LLM applications across four Indonesian telcos. Author of an IEEE FMLDS 2026 paper whose hybrid Random Forest–ARIMA model cut forecasting error by 22.7%.

EDUCATION

Institut Teknologi Bandung

B.Sc. in Information Systems & Technology

Kota Bandung, Indonesia

2022 – 2026

National University of Singapore

Summer Programme, Entrepreneurship / Startup Building – ASEAN SPARK Fellow (full scholarship)

Singapore

Jul 2026

EXPERIENCE

Data Scientist Apprentice – B2B Operations & Analytics

PT Indosat Tbk

Apr 2026 – Present

Jakarta Selatan, Indonesia

- **Built** the BigQuery data mart and pipelines behind Customer 360, unifying **5M+** records from **10** source systems for **5,000+** B2B customers; selected as a **top** project in the apprenticeship cohort.
- **Engineered 10+** health attributes (uptime, billing, tickets, CSAT, revenue trend, contract end) feeding a 0–100 health score for **162** VIP accounts, helping account teams spot churn risk before complaints.
- **Contributed** to an LLM agent that answers account questions and builds a **14-slide** review deck in one click.
- **Automated** data extraction from network design documents using GenAI, reducing manual data entry by **50 hours/week**.

Intelligent Automation Configurator Intern

PT Telekomunikasi Selular

Jul 2025 – Sep 2025

Jakarta Selatan, Indonesia

- **Built** two Llama-based agents automating financial document routing across **3** departments, cutting processing time by **95%**.

Machine Learning Engineer Intern

ITB Career Center

Apr 2025 – Jun 2025

Bandung, Indonesia

- **Built** a career-path prediction model (Random Forest, XGBoost) trained on **25 years** of ITB alumni records.

AIoT Engineer Intern

PT XLSMART Telecom Sejahtera Tbk

Jul 2024

Jakarta Selatan, Indonesia

- **Analyzed** network performance data across **50+** sites, identifying **8** optimization opportunities.

Additional Experience

- **Tradeasia International** – System & Data Research Analyst Intern (Jan–Feb 2026); **PT Telkom Indonesia** – Business Analyst Intern (Jan–Feb 2025).

RESEARCH & PROJECTS

Hybrid RF–ARIMA for Daily PM₁₀ Forecasting – IEEE FMLDS 2026, Kobe, Japan 🌐

Nov 2026

- Undergraduate thesis (Grade A): Random Forest on **15** engineered features plus ARIMA on its residuals, trained on **29,220** daily records from **5** Jakarta stations.
- Cut RMSE by **22.7%** vs. a tuned Random Forest (RMSE **7.12**, R^2 **0.89**), outperforming XGBoost; tuned with Optuna, validated with time-series cross-validation, and explained with SHAP.

Nginep – Natural-Language Hotel Search for Bali 🌐 🌐

Sep 2026

- Deployed a search engine that ranks Bali hotels by evidence from real guest reviews, queried in plain language.
- LLM aspect extraction on **5,799** reviews (**0.856** macro-F1 vs. human labels); benchmarked ranking against keyword, embedding, and LightGBM LambdaRank baselines.

Charissa – Privacy-first AI Data Analyst (personal venture) 🌐 🌐

Jul 2026

- Built an LLM agent that runs analysis code in an isolated sandbox, so confidential data never leaves company infrastructure.

SKILLS & LANGUAGES

- **Machine Learning:** Random Forest, XGBoost, Logistic Regression, ARIMA, Optuna, SHAP, time-series cross-validation
- **Programming & Data:** Python (pandas, NumPy, scikit-learn), SQL, BigQuery, data pipelines, hypothesis testing
- **GenAI & Deployment:** LLM agents, FastAPI, Streamlit, Docker, Google Cloud, Git
- **Languages:** Indonesian (native), English (7.5 IELTS)

SELECTED AWARDS AND ACHIEVEMENTS

Google APAC Solutions Challenge 2025 – Top 10 Asia-Pacific Finalist for Simutrade, an AI trade platform for SMEs, Jun 2025.

YED UI 2025 – 2nd Place, Business Case Competition (Universitas Indonesia), Nov–Dec 2025.

Pra-Gemastik ITB 2024 – 1st Place, Smart Device, Embedded System & IoT Competition, representing ITB nationally, Jun 2024.

LEADERSHIP & EXTRACURRICULAR

McKinsey & Company – Forward Program Participant (Apr–Jun 2026).

STEI ITB – Teaching Assistant, Information Security & IoT, taught 60+ students (Feb–Jun 2026).

HMIF ITB – Co-Lead, Graduation Celebration Division: led a team to organize an event for 200 graduates (Sep–Oct 2023).
